

# Structuring and financing renewable investment in African countries

*Christian de Gromard , Energy practice leader  
Oslo, 12 06 2018*

## AFD's energy strategy : organized around 3 PILLARS

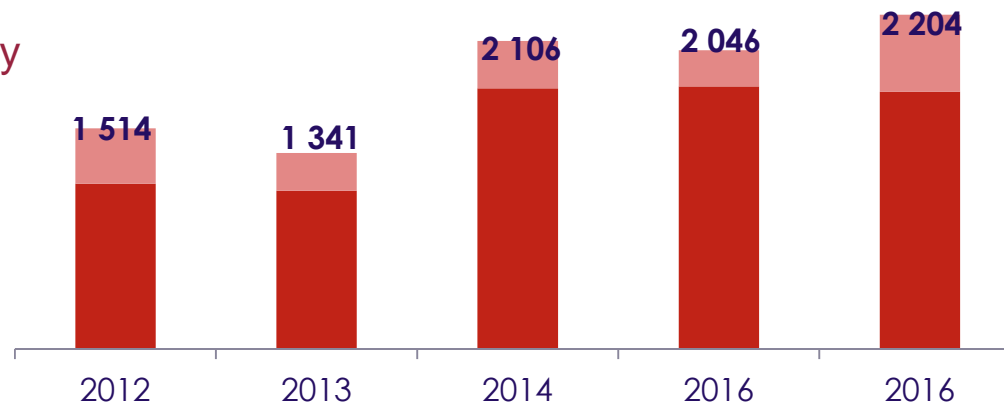

# AFD commitments in the energy sector

■ >2 billion €/year on Energy

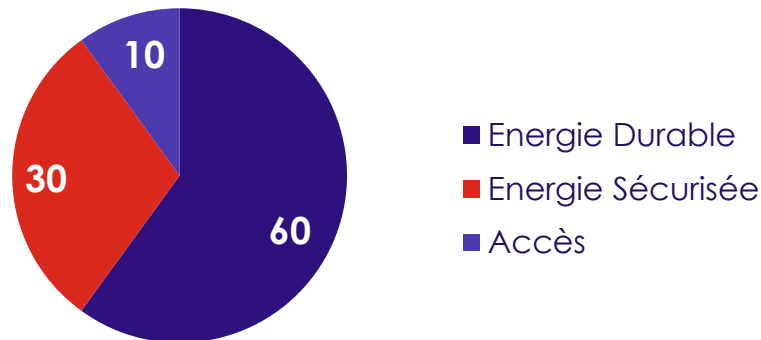

## ■ Main characteristics

- > 60% on sustainable energy
- > 50% on Africa
- Focus on “C-lean” projects
- 4 to 6 projects/year on energy access :

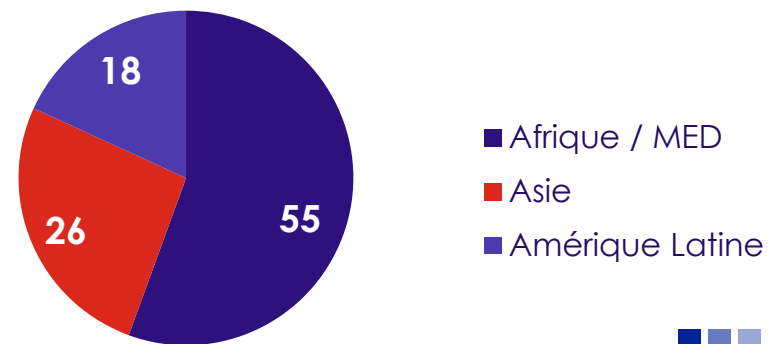

Annual commitments on Energy (k€)

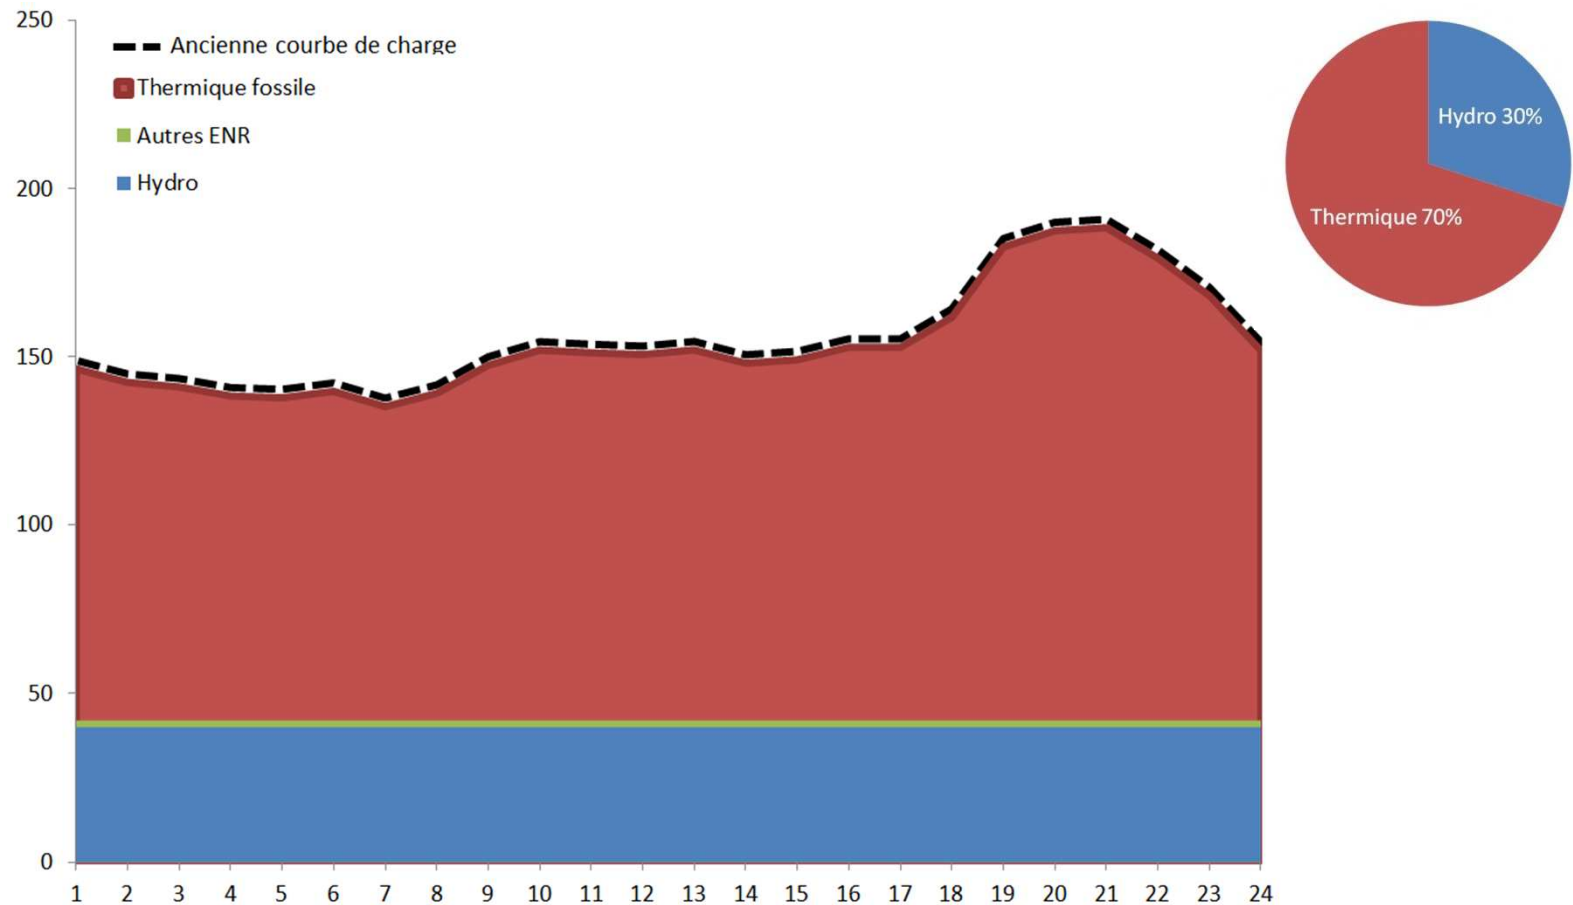

Strategic axes (%)

Geographic distribution(%)

# Structuring renewable and smart investment : transforming existing african grids

## Present electric mix in a typical african grid

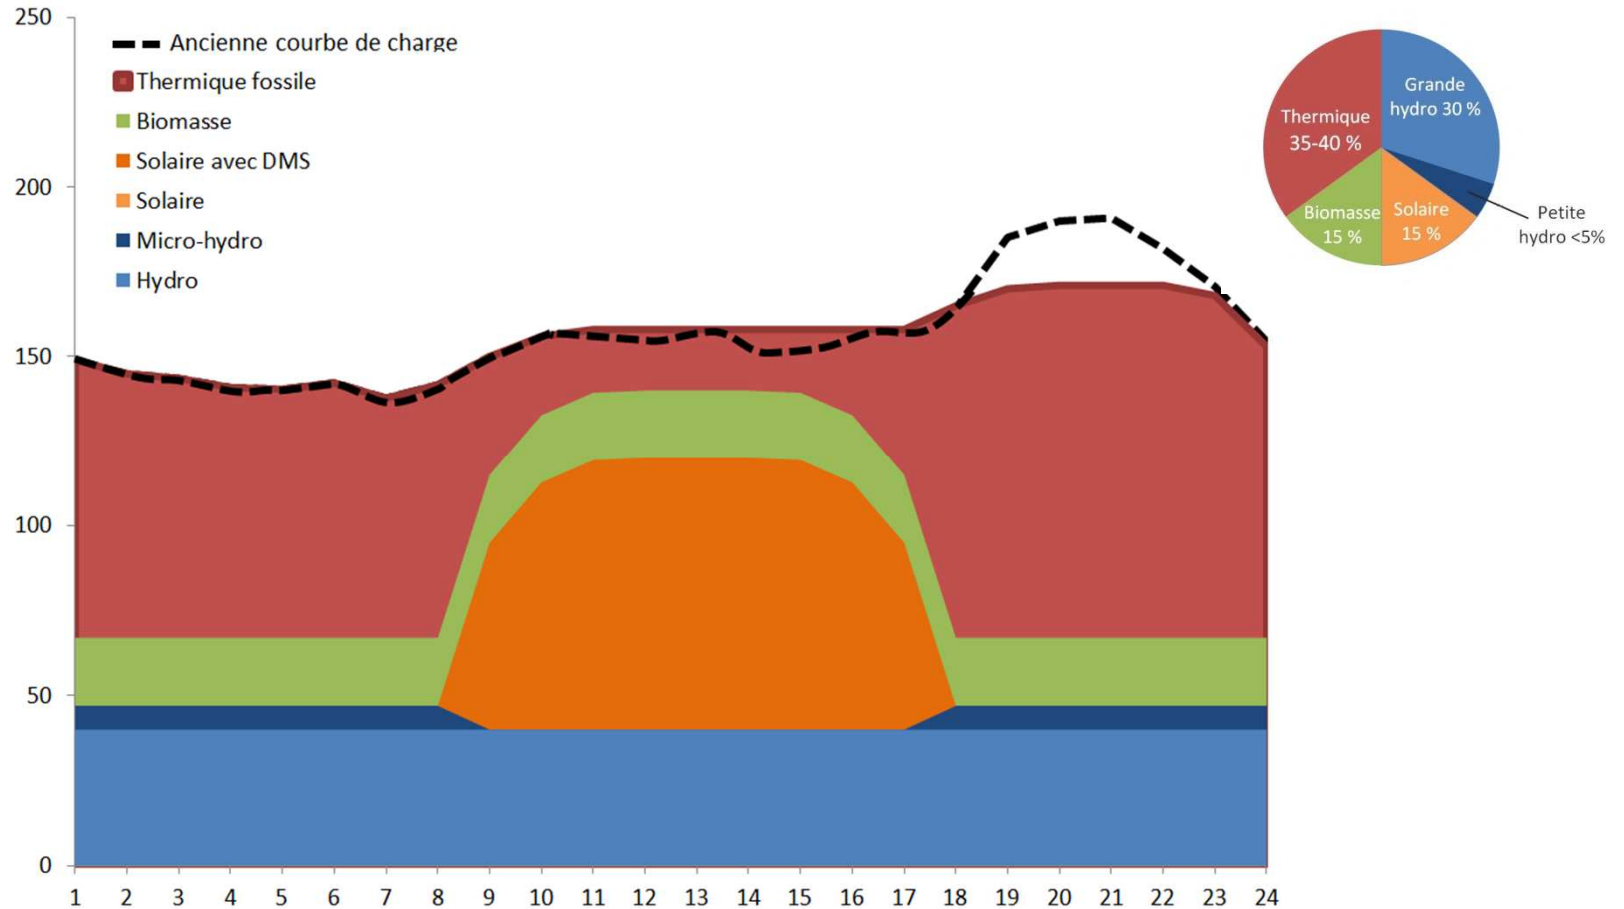

développeur d'avenirs durables

Trois axes structurants pour la transition énergétique en Afrique
