BioHorizon project is funded by the European Commission - Grant Agreement no. 652637

 #BioBrokerage

An OMEGA – system is a floating, near shore, platform integrating wastewater treatment, aquaculture, production of microalgal biomass and potentially other types of sustainable energy production, such as photo-voltaics.

**Wastewater treatment**

**Aquaculture**

**Energy production**

## We have

- Expertise on microalgae
- Expertise on biogas
- Contacts in the aquaculture sector

## We need

- Further industry contacts
- Socio-economic analysis
- Stakeholder involvement
- Design, building, engineering
